CIA 820B

December 28, 1950

NSC Declassification/Release Instructions on File

MEMORANDUM TO:

Chief

Plans and Operations Staff, ORR
Central Intelligence Agency

25X1A9a

Attached is a copy of a working draft, prepared in this Office outlining a proposal for consolidating various foreign economic programs.

This is not in any sense a position paper, either of the Resources Board or of this Office. Rather, it is an effort to highlight some problems in this general area which are now or shortly will be with us, and to suggest some possible solutions.

This copy is being sent you as I know you are interested in the problems and their solutions. I shall be glad to discuss the draft with you informally should you care to do so.
